## SUMMARY

Experienced and results-driven Technical Project Manager with a focus on managing large-scale projects through meticulous planning and execution. Equipped with 3+ years of expertise in overseeing critical projects, I possess a strong understanding of DevOps processes and tools like JIRA and Confluence. My proven ability to engage end-users and stakeholders ensures effective requirements gathering for successful project outcomes. I aim to leverage my **CAPM(Project Management)** and **AWS Certified** skills to implement efficient risk management strategies and deliver all projects on schedule.

## EXPERIENCE

Technical Project Manager  
ManekTech Solutions PVT LTD.

May 2021 - Present, Remote

- Provided engineering, product management, and Agile coaching services for a company in Ahmedabad.
- Conducted a root cause analysis for a multi-year rewrite project and recommended a business-centric, Agile approach to projects.
- Implemented Agile development practices across engineering teams, resulting in over 100% improvement in estimation accuracy and enhanced development predictability and visibility.
- Worked with Delivery Manager to successfully implement Scrum on the client's projects. Implemented Jira best practices (user story development) and helped improve Scrum ceremonies such as daily standup, sprint planning, sprint retros, and demos.
- Researched, identified, and managed strategic technology partnerships to drive business growth and revenue.
- Organized and facilitated project meetings to define project scope, finalize deliverables, and adapt to changes as needed.
- Managed multiple (more than five) client engagement projects concurrently, ensuring successful execution and client satisfaction.
- Led solution identification, feasibility analysis, and implementation recommendations for business-level improvements, contributing to effective project prioritization.
- Played a pivotal role in system design, ensuring efficient and scalable solutions for various projects.
- Contributed to enhancing product revenue and sales through effective project management and strategic initiatives.
- Added source code control best practices using Bitbucket and Github. Created Bitbucket pipelines to mirror source code repositories between Bitbucket and GitHub for disaster recovery. Implemented effective branch and merge strategies.

Technical Project Manager  
Zolute Technology & Consulting Pvt Ltd

December 2019 - March 2021, Indore
